OUR BIGGEST EDITION YET

For 30 years, MiningWorld Russia has been the country's leading exhibition for mining and mineral extraction equipment. It connects global manufacturers with Russia's top buyers – from mining companies to processing plants – making it the go-to platform for launching products, building partnerships, and driving business in one of the world's richest resource markets.

SECTORS

WHY RUSSIA?

\$75 Trillion in Untapped Resources
One of the world's richest reserves of natural gas, coal, gold, diamonds, and industrial minerals.

Critical Minerals for Global Supply Chains

- 3rd largest nickel reserves
- 4th largest uranium reserves
- Expansive copper deposits for the EV boom

\$1.5 Billion Investment in Rare Earths
12 million tonnes in reserves with a plan to grow global market share from 1.3% to 10% by 2035.

Government-Backed Growth Strategy
Strong state support for sector modernization, increased extraction, and export growth.

Automation Driven by Talent Shortages
68,000+ worker gap accelerates adoption of unmanned tech, AI, and smart operations.

Import Substitution & Innovation Push
High demand for international suppliers and technology partners in equipment, R&D, and components.

WHY MININGWORLD RUSSIA?

THE COUNTRY'S #1 MINING INDUSTRY EVENT

29+ Years of Market Leadership
Russia's leading mining exhibition, trusted by global and local companies.

Meet Real Buyers. Win Real Business.
Engage with plant directors, procurement heads, and engineers from Russia's top mining companies.

Proven ROI for Exhibitors
Hundreds of companies generate leads, sign deals, and strengthen their market presence every year.

Full Mining Value Chain Under One Roof
Heavy equipment, processing tech, digital solutions, and automation - all in one show.

CORE SEGMENTS

- 22% Mining operations
- 20% Components & spare parts supply
- 20% Machinery & equipment supply
- 5% Mineral Processing

SPECIALISED & STRATEGIC NICHES

- 15% Other business areas related to industry
- 5% Design & Construction of mining companies
- 4% Power Supply Equipment
- 3% Exploration
- 1% Geodesy

RELATED BUSINESSES & INFLUENCES

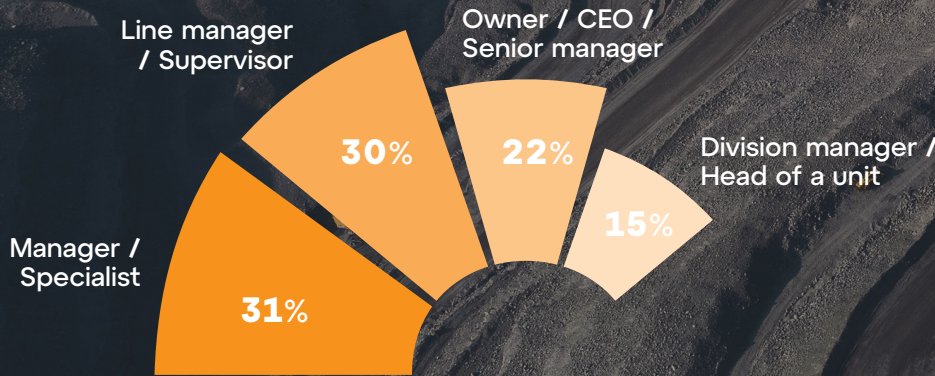

- 3% Transportation & Logistics
- 2% Oil & Gas Extraction
- 2% Media

83%

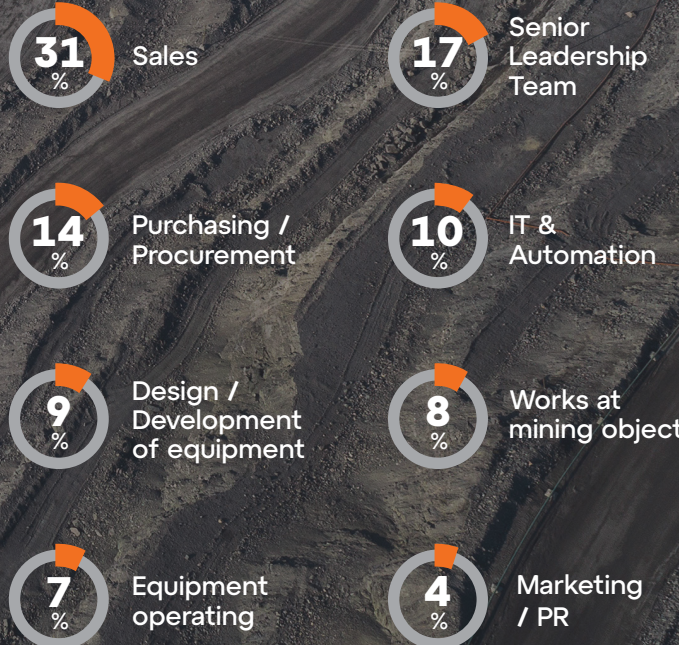

of visitors are directly involved in procurement, operations, or technology sourcing

OVERVIEW

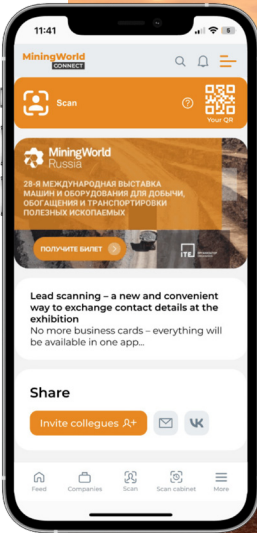

MiningWorld CONNECT

Now in its second year, MiningWorld Connect is a powerful digital platform that extends the exhibition experience beyond the show floor. Tailored specifically for the mining and mineral extraction industry, it streamlines lead capture, enables effortless contact exchange, and keeps participants connected before, during, and after the event.

FEATURES

- 1:1 messaging
- Online webinars
- Lead-scanning tools
- Smart matchmaking
- Contact management
- Meeting scheduling
- Personalised industry updates

A SMARTER WAY TO NETWORK YEAR-ROUND

“Participating in MiningWorld Russia helped us boost our production output by 1.5 times year-over-year — a clear return on investment.”

Mikhail Lukyanov
General Director

CONFERENCE PROGRAM

100+
SPEAKERS

14
CONFERENCE
SESSIONS

3
DAYS

INSIGHTS THAT SHAPE THE INDUSTRY

MINING LEADERS FORUM

Three days of executive-level discussions focused on strategy, growth, and innovation in mining.

MINING INDUSTRY 4.0 COMPETITION

Spotlighted leading digital and automation projects - from the digitalization of open-pit and underground mining to enrichment processes.

MAIN PLENARY SESSION

Featured senior representatives from Norilsk Nickel, EVRAZ, Mikhailovsky GOK, and ALROSA, exploring how industrial technologies are transforming mining performance.

MODERN ENGINEERING COMPETENCIES

Tackled challenges and skill gaps in implementing technological innovation across the sector.

INNOVATIVE OPEN PIT & UNDERGROUND MINING TECHNOLOGIES

Sessions on cutting-edge advancements and real-world applications.

GOLD & TECHNOLOGIES CONFERENCE

A focused track on innovations in mineral extraction, processing, and gold production technologies.

THE FUTURE OF PROCUREMENT IN MINING & METALS

Explored evolving procurement models, supplier relationships, and supply chain resilience.

CONFERENCE PARTNERS

General Partner of the business program
