Crocus Expo, Moscow, Russia

YOUR GATEWAY TO RUSSIA'S PHARMACEUTICAL

Manufacturing and Ingredients
Market

VIRTUAL EXHIBITOR PACKAGE

27th
edition

Organised by

Pharmtech & Ingredients 2025

Russia's \$31.4 billion pharmaceutical market is evolving, with increasing demand for innovative production technologies, high-quality ingredients, and localised manufacturing. With imports making up 39% of volume and 65% of value, international suppliers play a key role in this sector.

Pharmtech & Ingredients is Russia's only international exhibition covering the entire pharmaceutical production cycle—from raw materials and APIs to packaging, lab equipment, and turnkey solutions. It is where global suppliers meet top pharmaceutical manufacturers, R&D specialists, and procurement heads looking for new products and partners.

Whether you're supplying essential ingredients, cutting-edge processing technology, or compliance solutions, Pharmtech & Ingredients is your direct route to the Russian pharmaceutical industry.

“ This is the third time we are participating in the exhibition. It is an excellent platform for attracting visitors, meeting our partners, exchanging information and presenting our newest products. Thanks to the exhibition, we have met many pharmaceutical specialists, not only local but also international. ”

Anna Shang
Biogrowing

Why Choose Remote Exhibiting?

Stay Visible in a Competitive Market

Ensure your brand is seen by over 10,000+ pharmaceutical professionals and buyers, even if you're not physically present at the event.

Promote Your Solutions Without Travel Costs

Maximise exposure through the event's official website and printed show guide — reaching both online and on-site visitors — at a fraction of the cost of physical exhibiting.

Gain Year-Round Exposure

Your company details will remain in the online exhibitor directory, used by buyers as a reference long after the event ends — helping you stay top-of-mind.

Easy, Hassle-Free Participation

No booth logistics, no staff travel — just send your materials and we take care of the rest. Ideal for companies exploring the Russian market or testing event ROI.

What's Included in the Remote Exhibiting Package – Euro 1385

Company Profile

featured in the online exhibitor list on Pharmtech and Ingredients' website. (1)

Company Description

(up to 500 characters in both Russian and English)
published in the printed show guide/catalogue. (2)

Company Logo

Displayed alongside your profile in both the online directory and printed catalogue. (3)
